

Qualipac realize the new refillable case J'Adore

Qualipac produces the new refillable case (75 ml) for Dior's iconic fragrance for women: "J'Adore".

The "slim" metal case, anodized in shiny black, is a technically complex feat with deep drawing of the body and base.

The elegant engraved collar, forming a gold ring around the case, bears the brand's signature. The assembly is skillfully designed to make easy the opening and refilling of the refillable
